RE: Notice of Public Meeting for Walker BESS 4, 5 & 6 Projects

To whom it may concern,

In response to Ontario’s Independent Electricity System Operator (“IESO”) Long-Term Capacity Procurement, Walker BESS 4 Inc. is constructing the Walker BESS 4, 5 & 6 Projects (“Walker BESS Projects”), which are lithium-ion Battery Energy Storage Systems (BESS) located in the City of Windsor.

The Walker BESS Projects will be located at 3940 North Service Road East, Windsor, ON, N8W 5R7. Each project will provide up to 4.999 Mega-Watt (MW), providing much-needed electricity system reliability to Ontario.

Walker BESS 4 Limited Partnership has assigned these projects to Walker BESS 4 Inc., a special-purpose entity created by Compass Greenfield Development Inc. to develop these projects. More details on the IESO’s Long-Term Capacity Procurement are available online at: <https://www.ieso.ca/en/Sector-Participants/Resource-Acquisition-and-Contracts/Long-Term-RFP-and-Expedited-Process>

This meeting forms part of our community engagement plan. Its purpose is to answer any questions as we progress through construction. To accomplish this, we are inviting local landowners and municipal representatives to our public meeting to ask questions and discuss the projects.
